

MICRON MEMORY (M) SDN BHD FACTORY VISIT

On 4th September 2025 a factory visit to Micron Memory Sdn Bhd located at Perai Industrial Park, Pulau Pinang was organized. The main objectives of the visit are to learn Wave Soldering process for through hole mount components in motherboard production assembly and collecting data for student's final year project. During the visit, internship training opportunity, job opportunity for FPTP students and research collaborations with Micron Memory were also discussed.

The visit was hosted by Mr Wong Chee Wai who is the Senior Engineering Department Manager and Mr S Kumar who is the Senior Process Engineer at Micron Memory. In addition, another visit to Micron Memory's outsource factory was also arranged. The visit to Plexus Manufacturing Sdn Bhd at Bayan Lepas Free Trade Zone, Pulau Pinang took place on 23rd September 2025. The student gained valuable experience learning about high volume production operation in Plexus Manufacturing.
