

UTHM in the World: *Future Skills, NOW* @UNUyogjakarta

17-18 January 2025. Prof. Ts. Dr. Alina Shamsuddin (FFTP), Prof. Ir. Dr. Chan Chee-Ming (FTK) and AP Ts. Dr. Azeanita Suratkon (FKAAB) were appointed **International Industry Advisory Panelists (IIAP)** of **Universitas Nahdlatul Ulama (UNU)**, kicking off the opening activity for year 2025 with a Public Lecture and 2-day workshop at UNU Yogyakarta campus. As IIAPs, these UTHM experts would provide **consultation** in the areas of academic programme accreditation and audit, students' **assessment and development**, international **collegiality** and industrial **cooperation**, aligned with global growth trends and market expectations for sustainable development education, 'green' technological solutions, strategic applications, and enhanced employability skills.

With Berli Arta, Rahayu Rizky & Dr. Haryanto (UNU)

With UNU Yogya's Rector, Dr. Widya Priyahita Pudjibudojo

With UNU Yogya's Vice Rector (Research, Innovation & Global Recognition), Dr. Suhadi Cholli

Towards Global Readiness: Public Lecture & Workshop by Team UTHM

Audience of 300 students

Staff, students & Team UTHM

UTHM in the World: *Future Skills, NOW* @UNUyogjakarta

Delivered by Prof. Chan, the lecture entitled *Environment, SDG and Teachers: Growing the Future Talents*, was aimed at relating technical education today with **critical thinking and problem-solving skills** of graduates for tomorrow's sustainable development.

Also, the **workshop** of *The ThinkingLAB @UNUjogja- Future Skills: NOW*, jointly conducted by Prof. Alina, Prof. Chan and AP Dr. Azeanita, lay emphasis on the **21st century graduate attributes** outlined in the respective academic programme standards of **MQA, ETAC and EAC**, i.e. problem analysis, solution formulation, teamworking, equality, diversity, fairness, public safety and wellbeing, global sustainable growth and communications.

Not an ordinary 'motivational' programme at all, the recognition abroad of UTHM's expertise and talent is self-evident indeed, especially in the inculcation of holistic **GRADUATE CHARACTERISTICS** within the **Tauhidic** paradigm: Contemporary knowledge advancement growing in tandem with enhanced understanding and practice of the Faith.

"Honey that draws the diligent bees. Be."

With Dean, Faculty of Education, Dr. Mustaghfiroh Rahayu & colleagues, Berli, Rahayu & Harisna
